U.S. President Donald Trump has unleashed an economic war on America's political and economic adversaries. On the world stage, America is becoming an increasingly unpleasant antagonist. No one is happy about this, it's a recipe for global conflict. "The United States should face up to the possibility that peace may never break out between China and the United States," said Wang Yi, foreign minister of China.Turley: 'Fake' Wilders Policy Change Plays to 'Fantasies' of EU Leavers By Jerry Dunleavy April 23, 2017 Richard Turley, research fellow at George Mason University, discusses the EU referendum and offers up his take on the coming vote in the European elections on May 26. TAKES: Turley: 'Fake' Wilders Policy Change Plays to 'Fantasies' of EU Leavers By Richard Turley April 23, 2017 Richard Turley, research fellow at George Mason University, discusses the EU referendum and offers up his take on the coming vote in the European elections on May 26. Q: What is your analysis of the Wilders candidacy and what motivates it?A: Wilders has no chance of election in the Netherlands. And yet, he keeps running, running, running. He loves to take the attention away from the more serious candidates, and then he plays the hand he's dealt. His message is disingenuous. He's an embarrassment, and yet he kept running, running, running. And then he ended up with a place on the ballot. Q: What is he doing right? A: He is running against the EU while in office, he is running against the "globalists" he fears, he is using some of his previously defunct party. I assume he will attract plenty of lost voters, and that it will be a classic reaction to being ignored and pushed aside. Q: He has an agenda. What is it? A: Well, he wants to get the attention on

Q: SQLite update query returning error I have an SQLite table called Timeslot (TimeslotID, UserID, Start, End). To insert, I just have String sql = "INSERT INTO Timeslot (Start, End) VALUES (?,?)"; When I try to update, the following code does not work: String sql = "UPDATE Timeslot SET Start =?, End =? WHERE UserID =?"; This is the error message: ERROR/AndroidRuntime(1109): java.lang.IllegalArgumentException: column '_id' does not exist A: You're trying to update a row that doesn't exist, or a row that has a different primary key column name than the one you're sending to the database. I have never been offended by a man's desire to please a woman. I love being with men who are smitten with me. I love to be courted and I prefer it when I'm the one doing the courting. I like the idea of making a man work for my favor. Unfortunately, this has not always been a common occurrence. So much so that when a man shows interest in me, I have to be careful to not read too much into it, especially if I'm busy.Q: How to only get dtype from datetime64? I have a dataframe which has a datetime64 dtype. I want to get only the dtype of the datetime64 column I tried df.select('date') but it selects the strings from date = pd.to_datetime(df['date']) How do I get only the dtype from the datetime64 column? A: You can convert them to object, then specify dtype: df = pd.DataFrame({'Date':['2017-01-05', '2017-01-04']}) df.Date = pd.to_datetime(df.Date, errors='coerce
