The aim of this article is to review available knowledge about what is known about the effect of income on health. While much is known and very useful information has been gathered, more theoretical and conceptual issues need to be addressed if we are to develop a clear approach to the problem. I begin with a brief look at the importance of considering the nature and consequences of income inequality. In turn, I review health implications of poverty as they are currently understood and what this implies for future research. I then turn to the issue of demand-side determinants of poverty and health. The demand-side is seen as a complex interaction of biological, behavioral, and social factors that will have to be considered in order to understand the health effects of income. Finally, I suggest a research agenda that needs to be addressed if the full implications of the income-health relationship are to be understood.José Monjardim José Monjardim (born June 30, 1978 in Caruaru, Pernambuco) is a Brazilian football midfielder.
