1.43 build 199 93golkes.. 7 Tech Options (7.58 MB) - Setedithd100 1.43 build 199.Q:
How to create userspace read/write interface for iocharset? I'm implementing a
software RAID1 using the iocharset driver of Linux kernel, according to the config
file: # for RAID1 cache_dir /var/cache/mdadm/0 log_file /var/log/mdadm/0.log #
there is only one harddisk # /dev/sda is the first harddisk # /dev/sda1 is the first
raid partition /dev/sda1 hlog /dev/md0 2010-10-21T14:15:37Z Is there a userspace
library that allows userspace program to manage devices (or to mount these
devices as if they are a file system) that implements iocharset? 6d1f23a050
